Give a commanding performance

Get M²ore from your counter service

The new Avery Berkel **M601** printer features **M² Technology** to help you conduct your business more effectively and profitably. Specific features designed to enhance your store's performance are combined with easier to manage scale networks, proactive downtime prevention and lower ownership costs

The **M601** model is the ideal solution for applications requiring a system label printer which requires a separate weighing platform with up to 6000 kg or 6000 lb capacity.

M601 - integrated system printer for labels & receipts

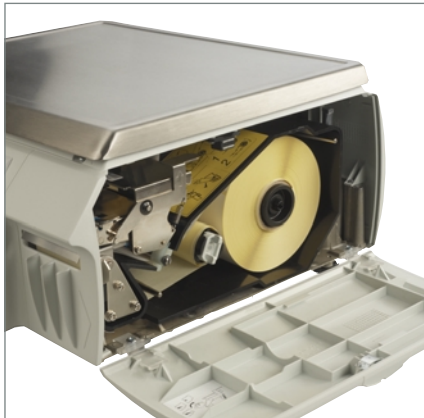

The **M601** features a versatile integrated design that prints receipts or labels. Its 40 pre-set keys can be configured to your business needs to ensure fast, efficient operation.

◆ Fast print speed

With a print speed of up to 150 mm per second, the **M601** helps to reduce queues and enhance customer service.

◆ Quick loading paper

The cassette printer accommodates paper rolls up to 120 mm in size and can be removed and reloaded in seconds.

Easy-access, quick-change label cassette

◆ Display

The full dot matrix display ensures easy operation - and the perfect medium to communicate customer messages and promotions.

Informative dot matrix display. Example shows PLU search mode

◆ Powerful memory

The **M601** has ample data storage capability for even the largest labelling operation - with option for expansion for up to 10,000 PLUs.

Promotional offers clearly displayed

◆ Any traceability system

The **M601** is ready to operate with any legislative traceability system - for any type of product - anywhere in the world.

◆ Asset management

Each printer can report on its location and status - saving the time and cost of a site inspection in times of maintenance or system upgrades.

◆ E-mail alerts

Save time and money by preventing problems before they happen - the printer can be programmed to alert store or system managers to issues such as printer running out of paper, faulty print-heads and network problems.

Specification

Standard Weighing Capacities:

300 kg x 100 g
150 kg x 50 g
60 kg x 20 g
30 kg x 5 g
15 kg/6 kg x 5 g/2 g
30 lb x 0.01 lb

Optional weighing interface card required for platforms comprising four load cells. When used, capacity and division size configurable up to 6000 kg or 6000 lb.

Display:

320 x 128 dot matrix display with bright white LED backlight.

Keyboard:

65 key tactile keyboard with 40 pre-set keys. Optional button style rubber keyboard overlay.

Cassette Printer:

Receipt and label operation as standard. Easy loading cassette operation. 120 mm diameter roll capacity. 60 mm paper width. 150 mm/s print speed.

Print Head Diagnostics:
